

Premium Abrasive Products

Supplying abrasive products
for a variety of industries:

-
- Woodworking
 - Metalworking
 - Glass
 - Rubber
 - Fiberglass
 - And More...

Our Commitment to Customer Service & Satisfaction

When it comes to premium abrasive products, Unisand is your number one source. Our products are used in a variety of industries, from woodworking and metalworking to rubber and fiberglass. With our state-of-the-art manufacturing equipment, we guarantee the fastest turnaround in the industry - even on custom orders. Unisand is a special kind of company. We are a family owned business dedicated to three major principles: **Quality, Fast Delivery** and **Customer Service**.

Our Facilities

In 2016, Unisand expanded its facility with the addition of a 30,000 sq. ft. building that focuses on Die Cutting and Z-Wheel™ manufacturing. The expansion gives Unisand a combined 80,000 sq. ft. of manufacturing, warehouse and office space to bring expanded capabilities to our customers.

80" Wide Belts With One Splice

Conditions of Sale

Terms

Net 30 days upon approved credit.

Quantity Variance

Unisand, Inc. reserves the manufacturer's right to ship over or under 10%+ of actual order.

Freight

Freight within the continental United States will be shipped prepaid on invoices of \$750 or more. On all other orders, freight will be shipped prepaid and charged.

Return Policy

No returns will be accepted and credit will not be issued for returned product without prior authorization and a Return Authorization Number from Unisand, Inc. If the product is not suitable for resale, the product will be returned at the distributor's expense. Any necessary repackaging will be deducted from the credit total. A restocking charge may apply.

Our Materials

Unisand prides itself on working with high quality base materials. Our vendors have been our partners for years and we try to work together to give our customers the best product for the application.

1AX-SAIT

Grain: Aluminum Oxide
Backing: X-cloth
Coating: Closed Coat
Grit range: 24-320
Applications: General, metal working.

2AH - SAIT

Grain: Aluminum Oxide
Backing: Y-Polyester
Coating: Closed coat
Grit range: 24-120
Applications: Metal working, heavy stock removal. Excellent on aluminum castings. Also good when planing hardwoods. Great in both narrow and wide belts.

7AS-SAIT

Grain: Ceramic
Backing: Y-Polyester
Coating: Closed coat
Grit range: 36-120
Applications: Wet grinding of stainless steel.

9AS-SAIT

Grain: Ceramic
Backing: Y-Polyester
Coating: Closed coat (with grinding aid)
Grit range: 36-120
Applications: Stainless and high carbon steel.

AOX - SAIT

Grain: Aluminum Oxide
Backing: X-cloth
Coating: Open coat
Grit range: 24-180
Applications: Woodworking, great in edge sanding and wide belt sanding. One of the best portable belts on the market.

KAF - SAIT

Grain: Aluminum Oxide
Backing: J-Flex
Coating: Closed coat
Grit range: 60-400
Applications: Excellent metalworking belt when flexibility is needed. This is also one of the most preferred woodworking products for pump sleeves and mold sanding belts.

ZH-SAIT

Grain: Alumina Zirconia
Backing: Heavy Y-Polyester
Coating: Closed coat
Grit range: 24-120
Applications: Excellent metal working belt—great edge wear. This is also one of the most preferred woodworking products for pump sleeves and mold sanding belts.

3ZH-SAIT

Grain: Alumina Zirconia
Backing: Heavy Y-weight polyester
Coating: Closed (with grinding aid)
Grit range: 36-120
Applications: Where stock removal is needed, grinding aid keeps belt cool. Great in stainless steel and high carbon steel foundries.

JA165 ECONOMY-DEERFOS

Grain: Aluminum Oxide
Backing: Flexible J-weight cloth
Coating: Closed coat
Grit range: 60-400
Applications: Sanding of surface & edges, sanding of shapes and profiles and dry application.

JA512-DEERFOS

Grain: Aluminum Oxide
Backing: Flexible J-weight cloth
Coating: Closed coat
Grit range: 60-400
Applications: Dry application, especially long cool cut, high cutting performance.

PC221-DEERFOS

Grain: Silicon Carbide
Backing: Y-Polyester
Coating: Closed coat
Grit range: 24-400
Applications: Excellent foundry belt & Dynaflex belt. Industrial glass working edge seaming of automotive windshields. Also great in the plastics, titanium and fiberglass industries

Our Materials (continued)

PZ628 - DEERFOS

Grain: Alumina Zirconia
Backing: Heavy Y-Polyester
Coating: Closed coat
Grit range: 24-120
Applications: Metal working, foundries, stainless steel sheet and plate polishing (where coolant is used). PZ628 is also a very good woodworking product for planing and edge grain sanding.

PZ528 - DEERFOS

Grain: Alumina Zirconia
Backing: Heavy Y-Polyester
Coating: Closed coat with a grinding aid for cooling when dry grinding
Grit range: 24-120
Applications: Excellent metalworking belt. Great for dry grinding of stainless and high carbon steels. The dry grinding aid helps to keep the belt cool.

CS710XF - KLINGSPOR

Grain: Heat treated aluminum oxide
Backing: Flexible X-cloth
Coating: Closed coat (with grinding aid for cooling)
Grit range: 60-240
Applications: Great belt for the polishing of intricate stainless steel parts. Use when finish is a top priority.

R-203-SUN

Grain: Alumina Zirconia
Backing: Y-Polyester
Coating: Closed coat (with grinding aid)
Grit range: 24-120
Applications: Stainless, carbon steel.

S181 - SUN

Grain: Silicon carbide
Backing: XY polyester
Coating: Closed coat
Grit range: 16-500
Applications: Industrial glass working edge seaming of automotive windshields. Also great in the plastics, titanium and fiberglass industries.

*Unisand also stocks FUJI-STAR,
Saint GOBAIN materials.*

KP52F 65" - AWUKO

Grain: Aluminum oxide
Backing: F-weight paper
Coating: Semi open coat with an anti-static property
Grit range: 60-220
Applications: Woodworking, hardwood cabinetry. Unisand is able to offer this product with a straight butt-joint, finger joint and .001 +/- lap joints.

KU22SY 65" - AWUKO

Grain: Aluminum oxide
Backing: Y-polyester
Coating: Closed coat
Grit range: 36-220
Applications: General metal working, excellent wide belts.

SU22SY 65" - AWUKO

Grain: Silicon carbide
Backing: Heavy Y-polyester
Coating: Closed coat
Grit range: 36-220
Applications: Wide belts, stainless steel & titanium

NAXOWOOD - NASTROFLEX

Grain: Silicon carbide
Backing: F-weight paper
Coating: Closed coat with an anti-static property
Grit range: 80-220
Applications: Woodworking, large wide belt lines. Usually used on the last head (platen) to give final finish.

562JFF-STARCKE

Grain: Aluminum Oxide
Backing: Highly flexible J-weight cloth
Coating: Semi-open (with grinding aid)
Grits range: 60-400
Applications: Grinding aids for cooler cut along with flexible backing gives you a great product for surgical implants, instruments and any other stainless steel operation where finish is critical.

E96-FANDELLI

Grain: Silicon Carbide
Backing: E-weight paper
Coating: Open coat
Grit range: 36-120
Applications: Excellent floor sanding product—great for edge discs.

Our Products: Coated Abrasives

Airfiles & Portables

Our portable belts are manufactured with **Sait's premium AOX** for woodworking and their **2AH** for metalworking. We believe to make a consistent airfile belt, you need to start with a good backing. This is critical due to the fact that the joints may only be a 1/2" wide or narrower. In using the **2AH**, **KT62XF** and **KAF** products, we are using products with either an Egyptian cotton backing or a 100% polyester backing. This enables us to maintain proper joint adhesion.

Narrow Belts

Whether it is a 6 x 300 stroke sander belt for woodworking or a 2 x 132 back-stand belt used on stainless steel, we have the range of products for your application. Our new equipment and dedicated workforce make sure that your first belt runs and cuts like your last belt.

Cloth Wide Belts

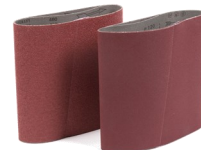

Unisand has invested significant time and money into our wide belt department. We consistently utilize the most current technology, equipment and quality raw materials. Our belief has always been that without these standards you simply cannot compete.

With the installation of the Biko wide belt line capable of making belts up to 2050mm (80") and the exceptional Awuko products available at 2050mm, Unisand will now be able to manufacture up to **80" in width with one splice**.

Pump Sleeves

Pump Sleeves made with the flexible **KAF J-Flex** material are ideal for highly contoured work pieces. Use our **LAX** material when stock removal is of more importance.

Belts for the Glass Industry

This product line has always been a major part of Unisand's business. We have consistently supplied some of the largest distributors and manufacturer's in this industry. From glass fabricating, glazing or finishing we have the products you need.

Unisand also handles Fuji-Stars straight cork product **RBX/R** when a polished edge is required.

Paper Wide Belts

KP52F: Brown aluminum oxide, F-paper, open coat, anti-static. Excellent wide belts for the cabinetry and furniture industry. **65" with one splice**.

Floor Sanding Discs & Belts

Unisand offers both discs and belts for floor sanding in a variety of sizes and materials. Belts: Heavy zirc Y-poly (XZ677 & PZ628). Edger Discs: E-silicon paper.

Resin Cloth PSA Discs

From our aluminum oxide products to our zirconia products, we have the disc for you. Listed below are the machines Unisand has invested in to accommodate heavy demand:

- ◆ **2 Preco Presses 24"** - These presses are meant for cutting detailed shapes, discs with tabs, vacuum holes or linkrolls.
- ◆ **1 CNC Atom Press 60"** - This press can cut Velcro discs right off the jumbo and with its programming, can nest the discs for maximum yield of raw material.
- ◆ **2- Clicker Press** - This press is simple but priceless. We are able to cut short runs with this press, cut end cuts down etc.
- ◆ **1-30" Rotary Disc Cutter** - With this press we can cut discs up to 30" in diameter. With hydraulic presses cutting a disc this large is difficult.

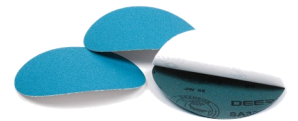

Paper & Film Discs—Goldline and Blueline

Unisand is now offering one of the best PSA and Velcro discs on the market. With our two high speed Preco presses and our CNC 60" Atom press, we can get you a superior product in whatever size you need.

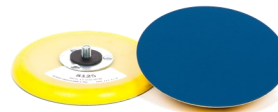

Advantages

- ◆ Heat treated aluminum oxide grain, quick stock removal
- ◆ Flexible backing, great for contours
- ◆ New stearate, helps reduce loading and pilling
- ◆ Our SA331 C-weight film product has great edge wear and durable backing. This is a great all-around product, from woodworking to metalworking. It is also great on fiber-glass and solid surface materials.
- ◆ Premium: Extreme orange film—60-2000 grit (Velcro & PSA)

Back-Up Pads

Available in both Hook & Loop and PSA.

Low Profile

High Profile

Flap Discs

Our flap discs are made with premium German coated abrasive flaps and a heavy reinforced fiberglass hub to insure the operator's safety.

- | | | |
|-----------------------|---|----------------------|
| Alumina Zirconia | — | Regular Hub (Blue) |
| Alumina Zirconia | — | 5/8-11 Hub (Blue) |
| Alumina Zirconia Blue | — | High Density (Jumbo) |

Available in the following styles:

- TYPE 27—Straight Face
- TYPE 29—Angled Face

Resin Fibre Discs

TP-A (Premium): This disc is best for general purpose grinding. Great for blending and finishing.

TP-Z (Zirconia): Ideal for heavy stock removal. For weld removal, stainless steel.

PMD (Ceramic): This disc is made with a premium alumina ceramic grain, with a grinding aid. Excellent on exotic alloys and/or stainless steel.

Quick Change Discs & Holders

- ◆ Aluminum Oxide (Brown)
- ◆ Alumina Zirconia (Green)
- ◆ C/G Ceramic

Aluminum Oxide

Aluminum Zirconia

Choose one of the following when ordering:

TYPE-S (Turn-on-Disc): Locks on with a quick twist, has a metal adapter with female thread.

TYPE-R (Roll-on-Disc): Has a plastic thread adapter with a male thread.

Mounted Flap Wheels

All of our spindle mounted flap wheels are made in Germany and are of the highest quality. Available with 1/4" straight shank and 1/4-20 threaded shank.

Rolls & Shop Rolls

Unisand slashes all of their material in-house. Listed below are some of the most requested products we use when slashing:

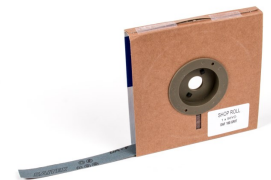

1AX: General, metalworking.

KAF: Excellent J-Flex product for nash sanding.

KT62XF: Great X-Flex product for Vonnegut loadings. Cuts nice—no strings or ugly edges.

CW: Waterproof X-cloth silicon carbide.

- ◆ 1/8" & 1/4" staggered slash
- ◆ 1/8" & 1/4" full nash
- ◆ 1/8" & 1/4" half nash

Paper & Cloth Sheets

Unisand offers a wide variety of coated paper and cloth sheets. All sheets measure 9" x 11".

Aluminum Oxide (Open Coat): Ideal for obtaining high quality finishes on a wide variety of materials, such as wood, sealers and fillers. Can also be used for nonferrous metals.

Silicon Carbide (Wet/Dry): Waterproof sandpaper may be used wet or dry on varnish, plastic and fiberglass. Secondary applications include marble and ceramics, as well as ferrous and/or nonferrous metals.

Aluminum Oxide (Stearated): Extremely long lasting, ideal for sealers, body filler, paint and fiberglass.

Metal (Cloth): Aluminum oxide abrasive on flexible backing. Ideal for hand sanding, deburring and polishing.

Our Products: Non-Wovens

Surface Conditioning Belts

At Unisand we stock both **Bibielle's SCLS** product and **SIA/Fibral's Hyperflex** product. Both products have a tight scrim backing, thus reducing the chance of stretching.

Bibielle's SCXF product was developed for small belts. The thinner flex backing allows us to produce airfile belts more efficiently. These belts are easier for your operator to use and this thinner backing has virtually eliminated belt joint problems.

Surface Conditioning Discs

We stock two products for discs:

SCLS - Low stretch/low scrim

SCHD - Heavy duty/blue scrim backing

Quick-Lok Surface Conditioning Discs

Choose one of the following when ordering:

TYPE-S (Turn-on-Disc): Locks on with a quick twist, has a metal adapter with female thread.

TYPE-R (Roll-on-Disc): Has a plastic thread adapter with a male thread.

Non-Woven Rolls

Non-Woven Rolls are excellent for any application where steel wool, emery cloth and wire brushes would be used. Wet or dry, Non-Woven Rolls can be used on both wood and metal surfaces.

Different sizes and grades available upon request.

Non-Woven Hand Pads

Our durable, highly comfortable hand pads provide consistent abrasive performance and are available in standard 6" x 9" sizes, as well as a wide variety of other sizes and grades, from very fine to heavy duty coarse.

Z-Wheels™

Unisand has been a leader in the industry with its mounted **Z-WHEEL™** line for the past 10 years. Each individually made for a better balanced wheel and a wheel that looks fantastic. Our trademarked **Z-WHEELS** will give you the stock removal you are looking for without the gouging that you get from a conventional mounted flap wheel.

Our standard size line of **Z-WHEELS** are available in diameters 5/8" thru 3". Our unmounted XL line of **Z-WHEELS** are available in diameters up to 14".

Z-WHEELS can be ordered the following ways. By changing the number of flaps we can change the density of the wheel:

- ◆ 1-ply coated abrasive
- ◆ 2-ply coated abrasive
- ◆ Straight Non-Woven Finishing Brush

Whether polishing a stainless steel faucet or doing the finishing sanding on hardwood molding, we have the wheel for you. Each wheel is individually made with Unisand's unique Unicore process. This process lets us control the quality better and lets us custom build the wheel for your needs.

Z-Wheels™ come in a
variety of sizes for a
variety of applications

XL Z-Wheels available
in diameters up
to 14"

Cartridge Rolls

All of Unisand's cartridge rolls are made with premium **Norton R-228** material. This material is a proven leader in the specialty market.

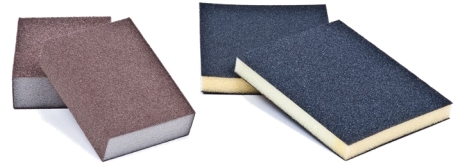

Our Products: Accessories

Sanding Sponges

There are three types of sponges stocked at Unisand. Most of these products are used in the woodworking industries, in the preparation for finish.

- 2-5/8" x 3-3/4" x 1": 4 sided aluminum oxide block
- 4-3/4" x 3-3/4" x 1/2": 2 sided silicon carbide pad
- 4-1/2" x 5-1/2" x 3/16": Hi Flex one sided aluminum oxide or silicon carbide

Canvas Jackets & Rubber Tubes

Unisand offers Canvas Jackets and Rubber Tubes for pneumatic pump sanders. Pneumatic sanding drums are also available.

Graphite Canvas

At Unisand we stock 6", 8", 9" and 10" width material. This material is excellent for stroke and edge sanders to help reduce friction. It is also a must when wide belt sanding with a finish platen.

Belt Cleaning Sticks

If used periodically, this cleaning stick can help increase belt life by reducing loading of the belt.

Size: 2" x 2" x 8"

Dual Action Sanders

Unisand offers both Dynabrade Dynorbital Sanders and AirVANTAGE Sanders.

Models available in 3", 3-1/2", 5" and 6" as well as 3/32 & 3/16 orbit.

1AX-SAIT
Grain: Aluminum Oxide
Backing: X-cloth
Coating: Closed Coat
Grit range: 24-320
Applications: General, metal working.

Part Numbers: NARROW BELTS

2AH - SAIT

Grain: Aluminum Oxide

Backing: Y-Polyester

Coating: Closed coat

Grit range: 24-120

Applications: Metal working, heavy stock removal. Excellent on aluminum castings also good when planing hardwoods. Great in both narrow and wide belts.

Note: All part numbers are for Straight Joint belts

Material: 2AH

Narrow Belts

AOX - SAIT
Grain: Aluminum Oxide
Backing: X-cloth
Coating: Open coat
Grit range: 24-180
Applications: Woodworking, great in edge sanding and wide belt sanding.

Note: All part numbers are for Straight Joint belts

Material: AOX

Part Numbers:
NARROW BELTS

Note: All part numbers are for Straight Joint belts

KAF - SAIT

Grain: Aluminum Oxide

Backing: J-Flex

Coating: Closed coat

Grit range: 60-400

Applications: Excellent metalworking belt when flexibility is needed.

This is also one of the most preferred woodworking products for pump sleeves and mold sanding belts.

Narrow Belts

Note: All part numbers are for Straight Joint belts

PZ528 - DEERFOS

Grain: Alumina Zirconia

Backing: Heavy Y-Polyester

Coating: Closed coat with a grinding aid for cooling when dry grinding.

Grit range: 24-120

Applications: Excellent metalworking belt. Great for dry grinding of stainless and high carbon steels. The dry grinding aid helps to keep the belt cool.

Material: PZ528

PZ628 - DEERFOS

Grain: Alumina Zirconia

Backing: Heavy Y-Polyester

Coating: Closed coat

Grit range: 24-120

Applications: Metal working, foundries, stainless steel sheet and plate polishing (where coolant is used). PZ628 is also a very good woodworking product for planing and edge grain sanding.

Note: All part numbers are for Straight Joint belts

Material: PZ628

80" Wide Belts with One Splice

Cloth Wide Belts

2AH - SAIT

Grain: Aluminum Oxide

Backing: Y-Polyester

Coating: Closed coat

Grit range: 24-120

Applications: Metal working, heavy stock removal. Excellent on aluminum castings also good when planing hardwoods. Great in both narrow and wide belts.

Note: All part numbers are for Straight Joint belts

80 grit & finer = 5/box

60 grit & coarser = 3/box

Cloth Wide Belts

AOX - SAIT

Grain: Aluminum Oxide
Backing: X-cloth
Coating: Open coat
Grit range: 36-180
Applications: Woodworking, great in edge sanding and wide belt sanding. One of the best portable belts on the market.

80 grit & finer = 5/box

60 grit & coarser = 3/box

Note: All part numbers are for Straight Joint belts

PZ528 - DEERFOS

Grain: Alumina Zirconia

Backing: Heavy Y-Polyester

Coating: Closed coat with a grinding aid for cooling when dry grinding.

Grit range: 24-120

Applications: Excellent metalworking belt. Great for dry grinding of stainless and high carbon steels. The dry grinding aid helps to keep the belt cool.

80 grit & finer = 5/box

60 grit & coarser = 3/box

Note: All part numbers are for Straight Joint belts

Cloth Wide Belts

PZ628 - DEERFOS

Grain: Alumina Zirconia

Backing: Heavy Y-Polyester

Coating: Closed coat

Grit range: 24-120

Applications: Metal working, foundries, stainless steel sheet and plate polishing (where coolant is used). PZ628 is also a very good woodworking product for planing and edge grain sanding.

80 grit & finer = 5/box

60 grit & coarser = 3/box

Note: All part numbers are for Straight Joint belts

Cloth Wide Belts

KAF - SAIT

Grain: Aluminum Oxide

Backing: J-Flex

Coating: Closed coat

Grit range: 60-400

Applications: Excellent metalworking belt when flexibility is needed. This is also one of the most preferred woodworking products for pump sleeves and mold sanding belts.

Minimum quantity = 10

Material: KAF

LAX - SAIT

Grain: Aluminum Oxide

Backing: X-Flex

Coating: Closed coat

Grit range: 40-120

Applications: Ideal for heavier stock removal.

**Part Numbers:
BELTS FOR GLASS INDUSTRY**

PC221-DEERFOS

Grain: Silicon Carbide

Backing: Y-Polyester

Coating: Closed coat

Grit range: 24-400

Applications: Excellent foundry belt & Dynaflex belt. Industrial glass working edge seaming of automotive wind-shields. Also great in the plastics, titanium and fiberglass industries.

Note: All part numbers are for Straight Joint belts

Material: PC221

KP52F 65" - AWUKO

Grain: Aluminum oxide

Backing: F-weight paper

Coating: Semi open coat with an anti-static property

Grit range: 60-220

Applications: Woodworking, hardwood cabinetry. Unisand is able to offer this product with a straight butt-joint, finger joint and .001 +/- lap joints.

80 grit & finer = 5/box

60 grit & coarser = 3/box

Note: All part numbers are for Finger Joint belts

65" Wide Belts with One Splice

XZ677-ECONOMY

Grain: Alumina Zirconia
Backing: X-Polyester
Coating: Closed
Grit range: 24-120
Applications: Wet and dry sanding, high pressure heavy duty grinding, deburring of forgings or castings. Excellent for hardwood flooring.

PZ628-PREMIUM

Grain: Alumina Zirconia
Backing: Heavy Y-Polyester
Coating: Closed coat
Grit range: 24-120
Applications: Metal working, foundries, stainless steel sheet and plate polishing (where coolant is used). PZ628 is also a very good woodworking product for planing and edge grain sanding.

E96

Grain: Silicon Carbide
Backing: E-weight paper
Coating: Open coat
Grit range: 36-120
Applications: Excellent floor sanding product—great for edger discs.

Part Numbers: RESIN CLOTH PSA DISCS

From our aluminum oxide products to our zirconia products, we have the disc for you. Listed below are the machines Unisand has invested in to accommodate heavy demand:

- ◆ **2 Preco Presses 24"** - These presses are meant for cutting detailed shapes, discs with tabs, vacuum holes or linkrolls.
- ◆ **1 CNC Atom Press 60"** - This press can cut Velcro discs right off the jumbo and with its programming, can nest the discs for maximum yield of raw material.
- ◆ **2- Clicker Press** - This press is simple but priceless. We are able to cut short runs with this press, cut end cuts down etc.
- ◆ **1-30" Rotary Disc Cutter** - With this press we can cut discs up to 30" in diameter. With hydraulic presses cutting a disc this large is difficult.

**Part Numbers:
RESIN FIBRE DISCS**

TP-A

This disc is best for general purpose grinding. Great for blending and finishing.

TP-Z

Ideal for heavy stock removal. For weld removal, stainless steel.

PMD

This disc is made with a premium alumina ceramic grain, with a grinding aid. Excellent on exotic alloys and/or stainless steel.

Quick Change Discs / Mounted Flap Wheels

Unisand slashes all of their material in-house. Listed below are some of the most requested products we use when slashing:

- KAF**—Excellent J-Flex product for nash sanding.
- KT62XF**—Great X-flex product for Vonnegut loadings. Cuts nice, no strings or ugly edges.
- CW**—Waterproof X-cloth, silicon carbide.
- 1AX**—Aluminum oxide X-cloth

- ◆ 1/8" & 1/4" staggered slash
- ◆ 1/8" & 1/4" full nash
- ◆ 1/8" & 1/4" half nash

**Aluminum Oxide
(Open Coat):**
Ideal for obtaining high quality finishes on a wide variety of materials, such as wood, sealers and fillers. Can also be used for non-ferrous metals.

**Silicon Carbide
(Wet/Dry):**
Waterproof sandpaper may be used wet or dry on varnish, plastic and fiberglass. Secondary applications include marble and ceramics, as well as ferrous and/or nonferrous metals.

Metal (Cloth):
Aluminum oxide abrasive on flexible backing. Ideal for hand sanding, deburring and polishing.

**Aluminum Oxide
(Stearated):**
Extremely long lasting, ideal for sealers, body filler, paint and fiberglass.

At Unisand we stock both **Bibielle's SCLS** product and **SIA/Fibral's Hyperflex** product. Both products have a tight scrim backing, thus reducing the chance of stretching.

Bibielle's SCXF product was developed for small belts. The thinner flex backing allows us to produce airfile belts more efficiently. These belts are easier for your operator to use and this thinner backing has virtually eliminated belt joint problems.

Our durable, highly comfortable hand pads provide consistent abrasive performance and are available in standard 6" x 9" sizes, as well as a wide variety of other sizes and grades, from very fine to heavy duty coarse.

Unisand has been a leader in the industry with its mounted **Z-WHEEL** line for the past 10 years. Each individually made for a better balanced wheel and a wheel that looks fantastic. Our trademarked **Z-WHEELS** will give you the stock removal you are looking for without the gouging that you get from a conventional mounted flap wheel.

Our standard size line of **Z-WHEELS** are available in diameters 5/8" thru 3". Our unmounted XL line of **Z-WHEELS** are available in diameters up to 14".

Z-WHEELS can be ordered the following ways. By changing the number of flaps we can change the density of the wheel:

- ◆ 1-ply coated abrasive
- ◆ 2-ply coated abrasive
- ◆ Straight Non-Woven Finishing Brush

Whether polishing a stainless steel faucet or doing the finishing sanding on hardwood molding, we have the wheel for you. Each wheel is individually made with Unisand's unique Unicore process. This process lets us control the quality better and lets us custom build the wheel for your needs.

Z-Wheels / Cartridge Rolls

Sanding Sponges

There are three types of sponges stocked at Unisand. Most of these products are used in the woodworking industries, in the preparation for finish.

- 2-5/8" x 3-3/4" x 1": 4 sided aluminum oxide block
- 4-3/4" x 3-3/4" x 1/2": 2 sided silicon carbide pad
- 4-1/2" x 5-1/2" x 3/16": Hi Flex one sided aluminum oxide or silicon carbide

SILICON CARBIDE

6" x 9"	1	220007	220017
8" x 9"	1	220008	220018

Canvas Jackets & Rubber Tubes

Unisand offers Canvas Jackets and Rubber Tubes for pneumatic pump sanders. Pneumatic sanding drums are also available.

Graphite Canvas

At Unisand we stock 6", 8", 9" and 10" width material. This material is excellent for stroke and edge sanders to help reduce friction. It is also a must when wide belt sanding with a finish platen.

GRAPHITE CANVAS	
Size	P/N
6" X 1 YD	220020
8" X 1 YD	220021
9" X 1 YD	220022
10" X 1 YD	220023

Belt Cleaning Sticks

If used periodically, this cleaning stick can help increase belt life by reducing loading of the belt.

Size: 2" x 2" x 8"

BELT CLEANING STICK		
Size	Qty	P/N
2" X 2" X 8"	50/case	220030

DUAL ACTION SANDERS

Size	P/N
5" - 3/16" ORBIT	220040
6" - 3/16" ORBIT	220041
3" HOOK	220042
5" HOOK	220043

Dual Action Sanders

Unisand offers both Dynabrade Dynorbital Sanders and AirVANTAGE Sanders.

Models available in 3", 3-1/2", 5" and 6" as well as 3/32 & 3/16 orbit.
